U. S. Plant Patent No. 249

GRAFTED ROSE PLANTS FOR 1939

LUCILE HILL

Joseph H. Hill Company
U. S. Plant Patent No. 305, Nov. 29, 1938

Lucile Hill is a pink seedling of 1934, originating with the Joseph H. Hill Company. We are disseminating it this year with full confidence that you will profit by growing it. We have tested it for four years and for over a year have sent its cut flowers into waiting markets. Lucile Hill is a cross of Sweet Adeline and one of our seedlings. The color is a vivid pink without that objectionable blueing which comes to so many pink roses with age. The open flower is semi-double and measures in the fall and winter from 6½ to 7 inches in diameter. It is a most vigorous grower and a real producer, being one of the most prolific varieties we have ever grown. We will have a limited supply of plants so place your order with us early and insure having this splendid new variety the first year. See front cover.

R. M. S. QUEEN MARY

Henry A. Dreer, Inc.
U. S. Plant Patent No. 249, June 8, 1937

R. M. S. Queen Mary, introduced last year, paid dividends to its growers. Already known for its good winter qualities, it surprised even its most enthusiastic supporters with its summer production. Even during the hottest months its size, color, and length of stem was of such quality that the flowers brought a premium in times of market gluts. The color of R. M. S. Queen Mary is a glorious combination of pure pink and rich glowing salmon, warmed by an amber glow arising from the orange base of the petals. See color plate facing this page.

PEERLESS

Joseph H. Hill Company
U. S. Plant Patent No. 157, Dec. 3, 1935

Peerless is our red sport of Better Times and has all the easy growing characteristics of the Columbia family. It is a bright velvety scarlet carmine with long pointed buds. Here is a red rose that is a good keeper—that holds its color. If you need a rose that is a deeper red than Better Times, plant Peerless.

PRICES

ROME GLORY

Jackson & Perkins
U. S. Plant Patent No. 304, Nov. 8, 1938

We have nearly 13,000 plants of this variety planted and it is fast coming to the front as a leader in the cut flower markets. Rome Glory is a cross of Dame Edith Helen and our own Sensation. It has crimson-red buds that open into full well formed cerise-red blooms.

SIGNET

The Montgomery Co., Inc.
U. S. Plant Patent No. 199, Sept. 29, 1936

Signet is a seedling of the Montgomery Co. resulting from the cross Premier x Talisman. It has a long pointed, deep pink bud opening to a softer, single toned, bright pink. Signet is no novelty but is a true clear pink and a free bloomer.

PRICES

Purchasers must sign agreement not to propagate stock of this variety except for their own use on a royalty basis.

YELLOW DOT

Joseph H. Hill Company

U. S. Plant Patent No. 312, Jan. 24, 1939

Yellow Dot is a semi-miniature seedling of the Joseph H. Hill Co. — a cross of Betsy Ross x Rapture. It does not grow in clusters as does Mrs. Finch but throws only one flower to a stem. It is a small rose, however, and is especially suitable for corsage work and table arrangements. Its size belies its petalage as Yellow Dot has 45 petals or more. Its color is deep orange shading to a creamy yellow as the flower opens.

PRICES

GRAND CANARY

U. S. Cut Flower Co.

U. S. Plant Patent No. 130, Aug. 13, 1935

A beautiful clear yellow sport of Token. Grand Canary has large well formed buds and on the cut flower markets is replacing Pernet. It is in a class by itself as to color as its rich yellow is unmatched by other present day roses.

PRICES

GRAFTED PLANTS

BETTER TIMES

Joseph H. Hill Company

U. S. Plant Patent No. 23, August 23, 1932

Better Times is now five years old. The universal acclaim it has earned in that time surpasses that of any rose of modern times. Through a trying business period this cerise pink sport of Briarcliff has definitely helped all phases of the florist trade. We believe by now if you grow any roses at all that you already have Better Times, so only suggest — plant more. See color plate inside back cover.

PRICES

GRAFTED PLANTS

(These prices apply to licensed growers who are destroying old plants of Better Times and replacing with young stock.)

Purchasers must sign agreement not to propagate stock of this variety except for their own use on a royalty basis.

LESTRA HIBBERD

Joseph H. Hill Company
U. S. Plant Patent No. 156, Dec. 3, 1935

Lestra Hibberd is a seedling of the Joseph H. Hill Company and is a cross of Sweet Adeline x Joanna Hill. It has a dark yellow bud, the open bloom orange yellow tinted with creamy white. Since its dissemination, Lestra Hibberd has been a favorite with retail florists. It is a good keeper, does not fade and its beauty appeals to all.

HAPPY DAYS

Amling Rose Co.
U. S. Plant Patent No. 144, Oct. 29, 1935

Happy Days, Amling's sport of Briarcliff, was disseminated by us in 1937. In the two years following it has firmly established itself as a leader in a class where it had to meet several worthy competitors. This rose is like Briarcliff in every way but one, being darker and more intense in color. Our large planting of Happy Days confirms our recommendation. See color plate on back cover.

PRICES

MRS. FRANKLIN D. ROOSEVELT

Traendly & Schenck
U. S. Plant Patent No. 80, Nov. 7, 1933

A yellow sport of Talisman that has survived the test of five years and remains as strong as ever. It has produced in quantity good saleable flowers for the grower and that is the answer to its popularity.

PRICES

| GRAFTED PLANTS | | SCIONS | |
|--------------------------------------|-------------------|--------------------------------------|-------------------|

Orders for this variety can not be accepted for shipment into the following named states: New York, Pennsylvania, New Jersey, New Hampshire, Massachusetts, and Connecticut.

AMERICAN PRIDE

N. Grillo

U. S. Plant Patent No. 49, Dec. 20, 1932

American Pride, grown exclusively by us for our white rose, has made a wonderful record here. Produces twenty-six flowers or better per year. American Pride is a sport of Grillodale which in turn sported from Mme. Butterfly.

PRICES

GRAFTED PLANTS

\$ 30.00 per 100 — 25 to 250

Purchasers must sign agreement not to propagate stock of this variety except under special license from originator.

TOKEN

The Montgomery Co., Inc.

U. S. Plant Patent No. 95, April 24, 1934

A seedling resulting from Mme. Butterfly x Premier Supreme. It has a single-toned orange color in the bud which as it opens, softens to a combination of peach-pink and orange in its outer petals. A beautiful flower and an excellent shipper. Produces an abundance of medium length roses.

PRICES

GRAFTED PLANTS

\$12.00 per 100 \$120.00 per 1000
in all quantities

Purchasers must sign agreement not to propagate stock of this variety except for their own use on a royalty basis.

MRS. FINCH

Mrs. Finch is one rose that it is well for both large and small growers to have. It is a beautiful light Pink Sweetheart rose and for corsage work is unequalled. Retail growers especially should not overlook planting some of this variety. It is so disease resistant that it will do well even in unfavorable, drafty locations.

PRICE OF GRAFTED PLANTS

\$25.00 per 100 in all quantities

STANDARD VARIETIES

AUTUMN—Burnt orange, streaked with red
(L. B. Coddington)

TERMS OF SALE

All orders subject to 2% cash discount if money accompanies order or if paid within 10 days from date of invoice. Otherwise all bills are net and due in 30 days; overdue accounts are subject to 6% interest per annum.

Cash must accompany orders under \$5.00.

If C. O. D. shipment is requested, the order must be accompanied by at least one-third the amount to insure acceptance. No discount is allowed on C. O. D. shipments.

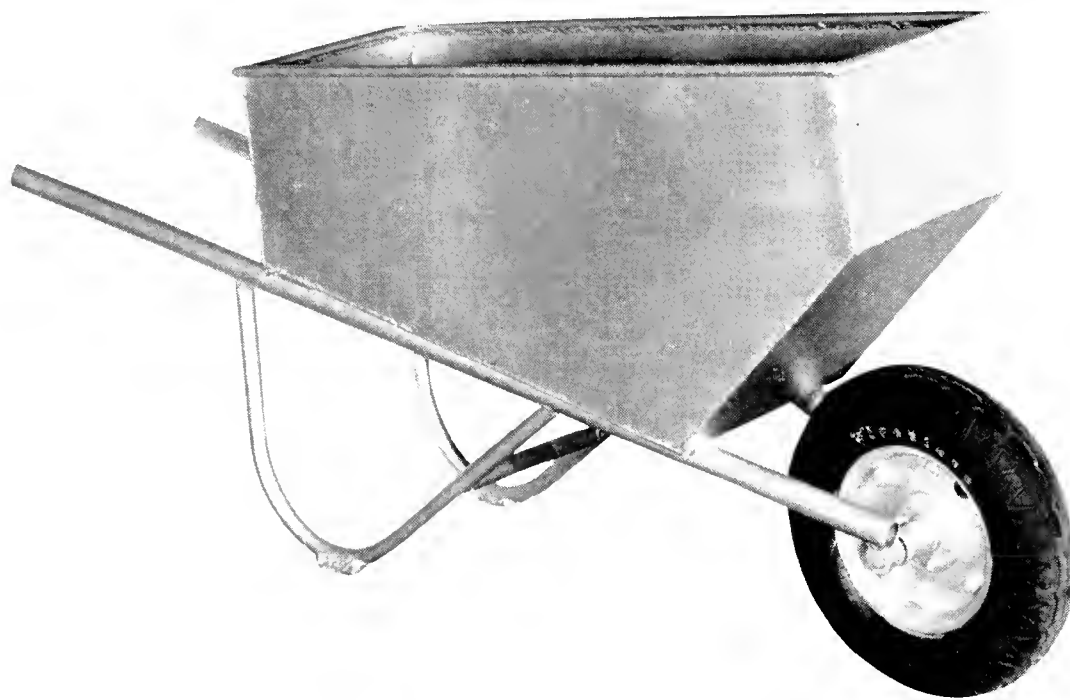

CHARGE ACCOUNTS. New customers who wish to open a charge account will please furnish us credit references and allow sufficient time for us to confirm same. If immediate shipment is desired, cash must accompany your order, and in the meantime we can look up your references for future shipments.

SPECIAL NOTICE. ALL SHIPMENTS TRAVEL AT THE RISK OF THE PURCHASER. SHOULD ANY DAMAGE OCCUR, NOTIFY YOUR EXPRESS AGENT AT ONCE SO YOU CAN ENTER CLAIM.

SUNDRY ITEMS FOR GREENHOUSES

We have many requests from our customers for various tools and other products used in greenhouses. So that we may better serve you we have become Jobbers for all items listed. If you wish something that is not listed write us and we will find it for you. All prices listed are the regular prices to greenhouse companies. As we are handling the following on a small margin, it must be on a cash basis.

HILL'S MULCHING BARROWS

This barrow is manufactured by us and will stand the heaviest work. It is strong, light and fast, getting maximum accomplishment with least effort. Its easy mobility is due to the pneumatic tire, perfect balance, and lightness resulting from its all welded construction.

Wheel is fastened on axle housing with two set screws. Wheel is roller bearing, removable, made of pressed steel. Firestone

four-ply, double tube tire. Keep inflated at 30 to 40 lbs. pressure, depending on condition of walk and load.

Water-tight bed made of 16-gauge steel—14 inches wide, 40 inches long. 16½ inches spread at the handles. Weight 76 lbs. WASH and DRY this Mulching Barrow after using and it will last indefinitely.

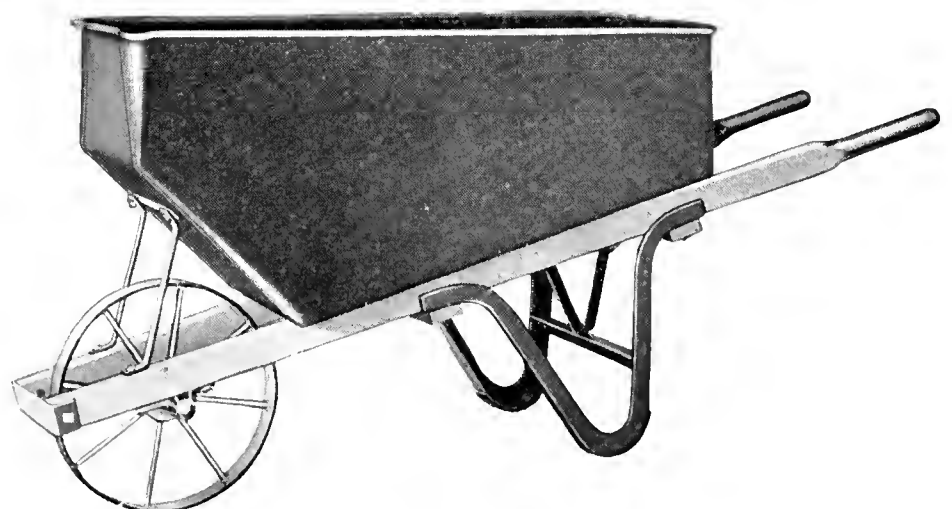

Price \$26.50 f.o.b. Richmond, Indiana.

MARTIN GREENHOUSE BARROW

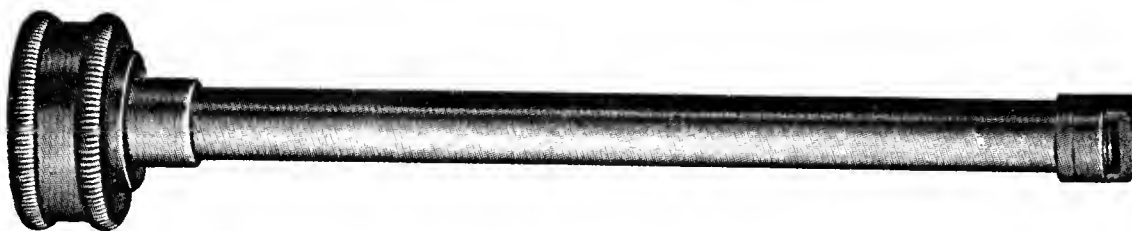

Can be used in any standard Greenhouse walk. The steel tray is water-tight, size 14 x 18 x 40 inches. This barrow is well made and serviceable.

Weight, 80 pounds.

Price \$15.00 f.o.b. Lansing, Michigan.

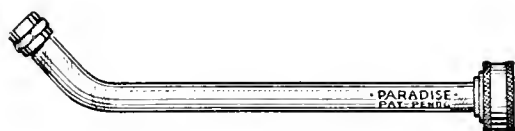

SYRINGING NOZZLE

Good workmanship and material have made this a most satisfactory nozzle for general syringing.

Price—\$1.75 each, postage prepaid, less 2% cash discount.

PARADISE SYRINGING NOZZLE

A well made brass nozzle that syringes with an evenly strong washing spray. The tips are made of brass and have a large enough opening to prevent clogging. Each nozzle comes equipped with two tips, No. 1 for mums, carnations, small potted plants, and No. 4 which is for syringing roses.

Price—10" nozzle \$2.50 each, \$7.00 for three, \$28.00 per doz.; 18" nozzle (use on ground beds) \$3.00 each.
Extra tips 35c each. Postage prepaid on any order.

RUBBER APRONS

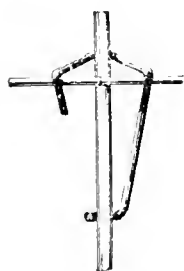

Large, heavy rubber wash apron, 36 inches by 45 inches in size. Holds up well under the punishment of greenhouse syringing and watering.

Price—\$1.75 each prepaid

\$1.50 each prepaid if six or more are ordered.

EVERLASTING ROSE STAKE FASTENER

We believe these fasteners give you the best and most economical way of fastening your stakes to the length wires. Made of galvanized spring wire No. 15. Will hold their spring for years and can be removed at any time and reused.

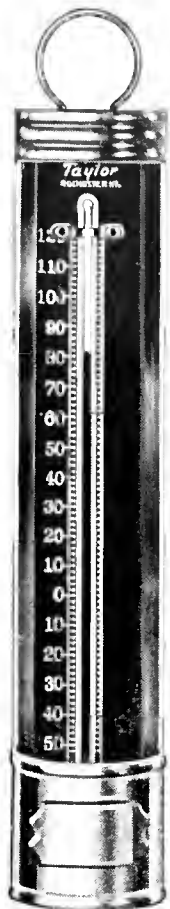

Price—\$3.30 per 1000

\$3.00 per 1000 in quantities of 5000 or more.

WIRE STAKES

These rose stakes are made from No. 8 Galvanized Wire, straightened and cut in 5 or 6 foot lengths. Write us for quotation stating the number and length you want and we will give an immediate quotation from your nearest shipping point.

THERMOMETERS

5420

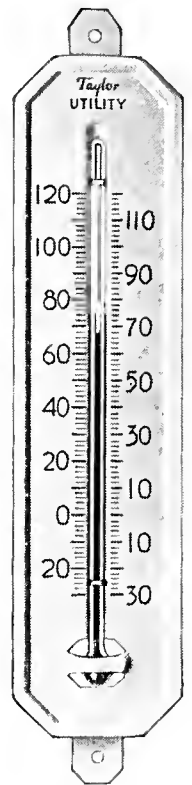

These Taylor thermometers are designed so that, when read, the figures, graduations and liquid column stand out clearly, sharply and legible. They are built for hard work and accuracy. A poor thermometer is of no more use than none at all.

No. 5420 — An 8 inch metal case greenhouse thermometer. The scale is black oxidized with white figures and graduations. Permacolor tube with magnifying lens.

\$1.00 each, \$12.00 per dozen.

Packed twelve to carton. There is a handling charge of 10% on orders of less than one carton. This is not charged if any one of the items ordered is in carton quantity.

No. 5127—An outdoor thermometer. Scale is 8½ x 2 inches weather-proofed with heavy white, vitreous enamel. The black figures and graduations are fired in for permanence. Designed for wall mounting. Will spend its life outdoors and retain its good looks while accurately registering the all important temperature.

5127

Price—\$1.00 each, \$12.00 per dozen.

Packed twelve to a carton. There is a handling charge of 10% on orders of less than one carton. This is not charged if any one of the items ordered is in carton quantity.

No. 5981—Soil or Sand Thermometer for cutting bench. 15" V-shaped wood case with handle. Oxidized brass scale with white-filled figures and graduations. Magnifying mercury filled tube. Strong pointed metal end.

Price—\$3.50 each, \$42.00 per dozen. Six in a carton.

5981

FLORIST KNIVES, PRUNING SHEARS, TROWELS

R-4495

Pyremite handle; brass lining; N. S. trim; glazed blades. Length, closed, $3\frac{3}{4}$ inches. Weight, per dozen, $1\frac{1}{4}$ lbs.

\$1.25 each, \$10.00 per doz.

No. 1255

Many purpose knife in a nice thin pocket size, $3\frac{5}{8}$ inch. Cocobola handle.

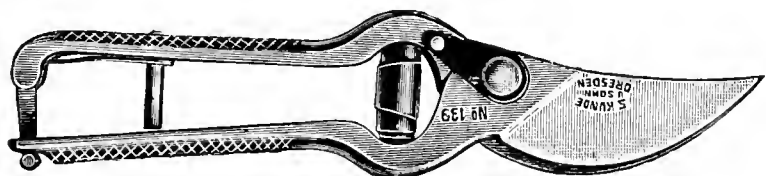

65 cents each, 3 for \$1.65

No. 23-A

An original S. Kunde & Sohn grafting knife. Ebonite handle. 10cm. An excellent knife.

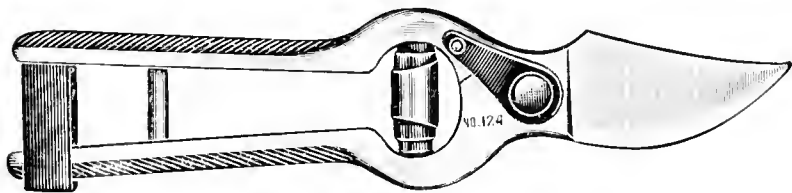

\$2.25 each, 3 for \$6.00

No. 139

S. Kunde & Sohn Shear. Drawing cut, light in weight. Latch folds in. 21 cm.

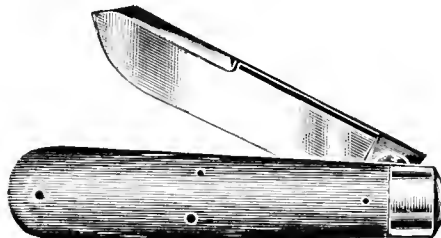

\$3.00 each, 3 for \$8.00

No. 124

Medium priced S. Kunde & Sohn Shear for general use and an exceptional value. Security plate and leather closure. 20 cm. Closing pin now enclosed within spring, no danger of pinching hand.

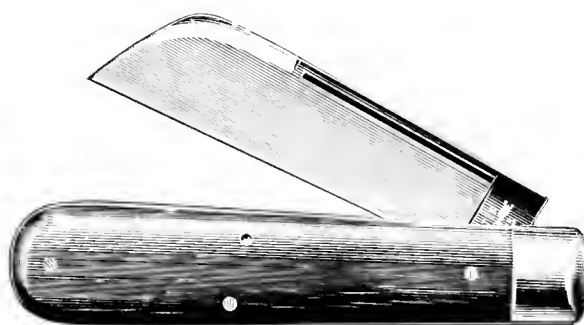

\$2.65 each, 3 for \$7.00

R A1

Rosewood handle; one blade, large spey; blue glazed; polished steel bolster and lining. Length, closed, $3\frac{3}{8}$ inches. Weight, per dozen, $1\frac{1}{4}$ lbs.

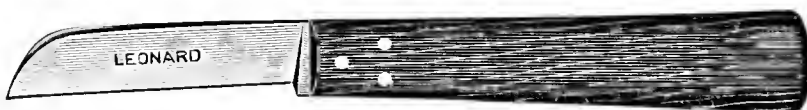

35c each, \$2.80 per doz.

No. 15505

Cocobola handle; steel linings. $3\frac{1}{4}$ inches.

50 cents each, 3 for \$1.35

No. 8 Grafting Blade

Fixed blade; oval cocobola handle. 3 inch blade. 7 inches overall.

70 cents each, 3 for \$1.90

No. 8½ Small Grafting Knife

Fixed blade; oval cocobola handle. $2\frac{3}{8}$ inch blade; $6\frac{1}{2}$ overall. Also especially suited for making cuttings.

45 cents each, 3 for \$1.20

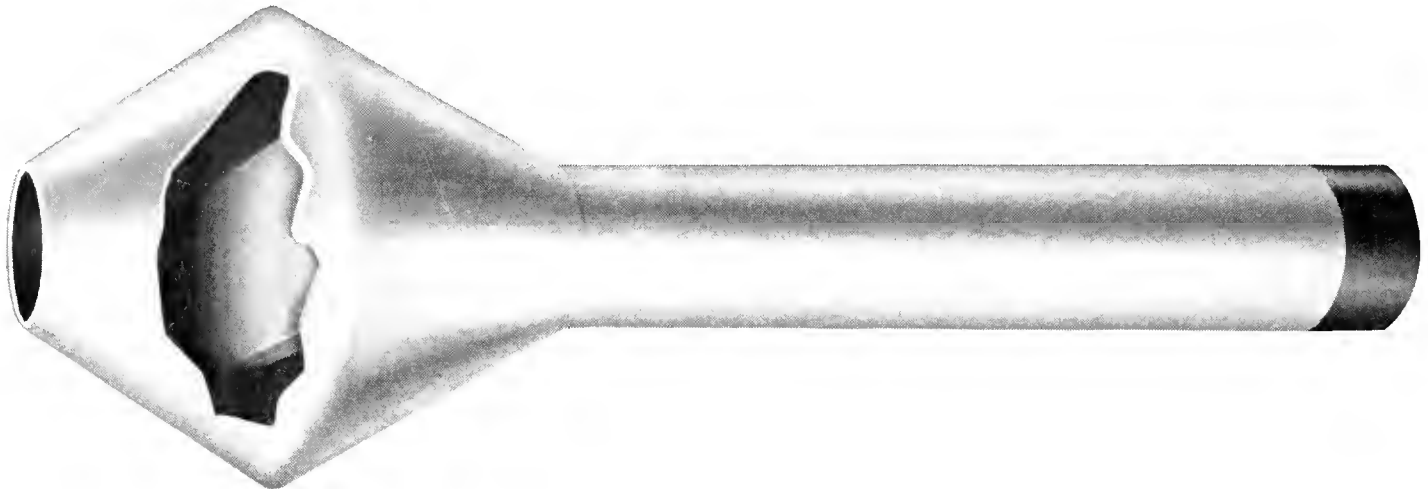

No. 211

One piece trowel forged with strong handle. Preferred by us because the handle can be gripped close to the blade. 5 inches.

60 cents each, 3 for \$1.65

WATER BREAK

This 11 inch Water Break allows us to put on more gallons of water per minute than anything we have ever used. Pressure relief starts right from the end of the hose and is broken down completely by the breaker plate in the head. Large outlet opening with brass inlet threaded to fit standard hose fittings.

Non-breakable aluminum body with brass fitting for the threads makes this breaker light to handle yet built for long service.

Price each, \$2.25

ROSE SPRAY

This Rose Spray is also made to do more watering in less time. Aluminum body for lightness, brass fitting for threading, and 41 properly placed holes to deliver the water in a uniform pattern.

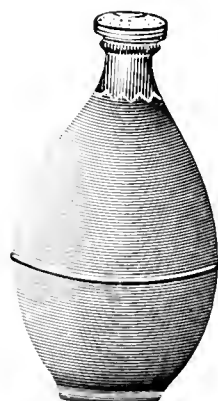

This non-breakable spray is built for service and satisfaction.

Price each, \$1.75

PLANT SPRINKLER

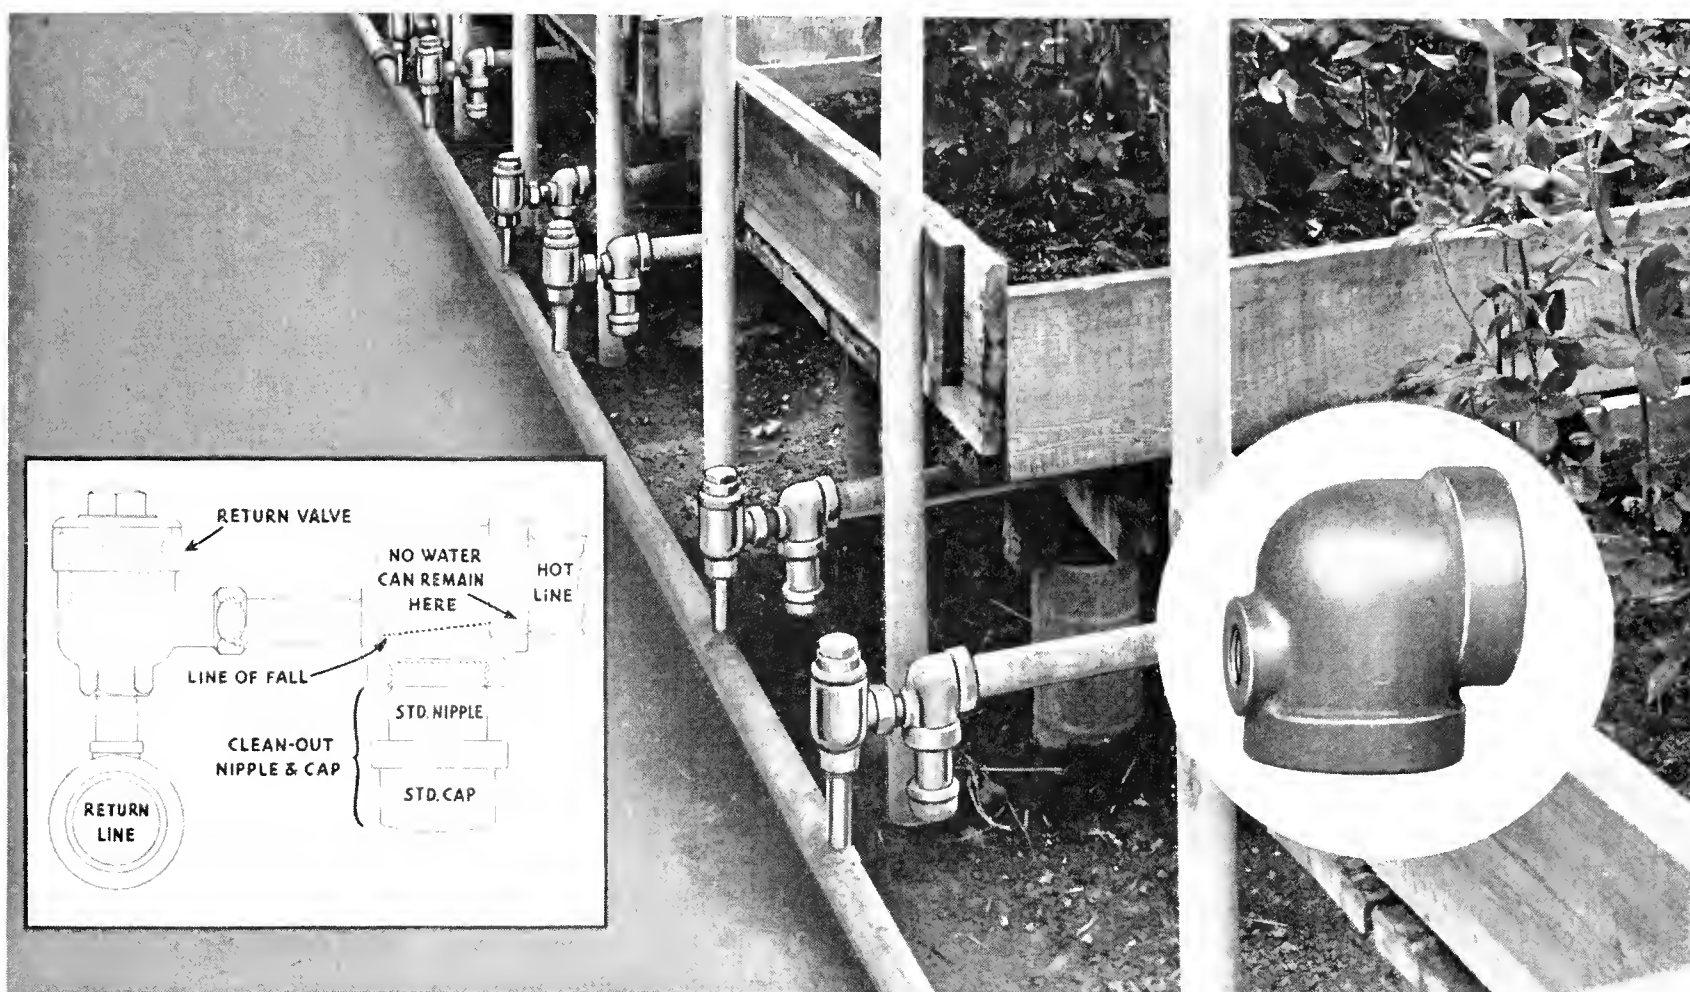

Each\$1.20 prepaid
Six or more..... 1.10 prepaid

SCOLLAY PUTTY BULB

Each\$1.25 prepaid
Six or more..... 1.15 prepaid

HILL RETURN TEE

This HILL TEE has solved a problem of long standing for us and is recommended to the trade after years of practical use. Installed on the return end of a line the tee provides a dirt pocket by using a short nipple and cap. The outlet to the return valve is decidedly below the heating line, yet above the opening in the return valve, resulting in a good line of gravity fall which absolutely drains the line.

Notice the saving in space this tee provides and the elimination of unnecessary fittings and nipples. Notice too that the cleanout cap is easy to reach.

This compact Tee is available for 1 $\frac{1}{4}$ " or 1 $\frac{1}{2}$ " heating pipe, 1 $\frac{1}{4}$ " or 1 $\frac{1}{2}$ " cleanout nipple, and $\frac{1}{2}$ " or $\frac{3}{4}$ " return valve outlet. Made from high grade iron not effected by rust.

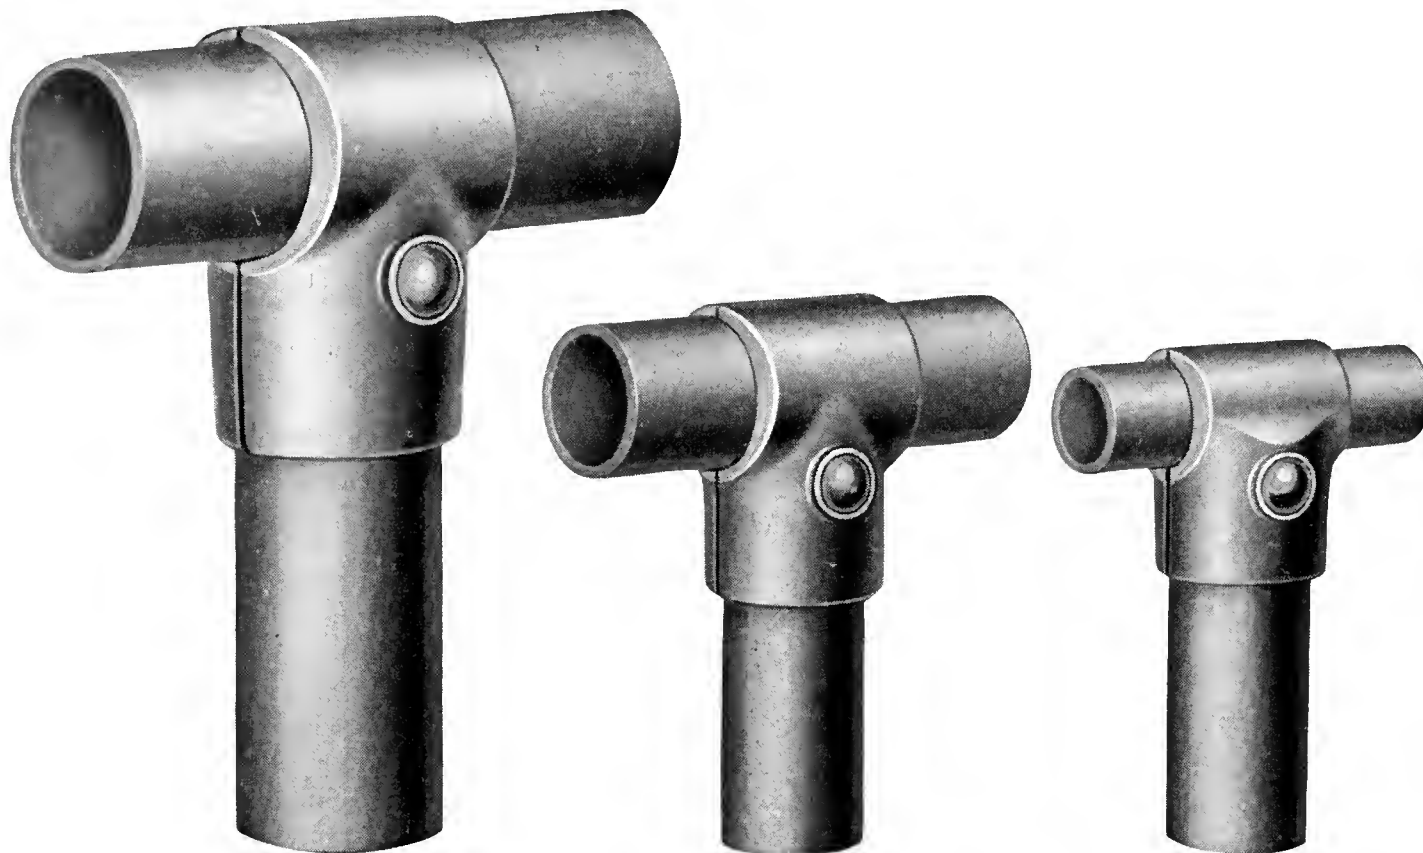

Price each, 50 cents

HILL'S POT PLANT STAND

We make a practical pot plant stand that elevates the plants 34 inches above the bench. Three legs made of $\frac{3}{8}$ " steel are welded together forming a triangular depressed top. Valuable as bench space saver and also in finishing off choice plants by getting them up into even sunshine and air. Shipping weight, 3 $\frac{1}{2}$ lbs.

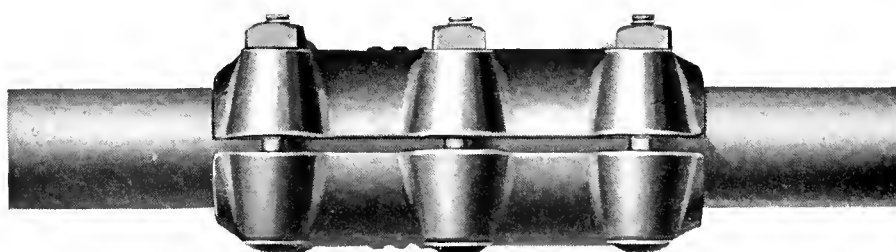

Price—50 cents each, \$45.00 per 100, F.O. B., Richmond, Indiana.

SPLIT TEES

For all kinds of pipe-framing work we have found these ADVANCE tees inexpensive, practical, neat appearing, and reliable. Using just one assembly bolt they are quickly installed without threading any pipe, and they hold under either a twisting or pulling strain. Their many uses around our greenhouses warrant keeping a few on hand in the more standard sizes. To order split tees correctly always state the size of the pipe going through the fitting twice, and the size of the pipe ending in the fitting once, viz: 1 1/4" x 1 1/4" x 1". Thirty-two sizes are available in a price range as follows:

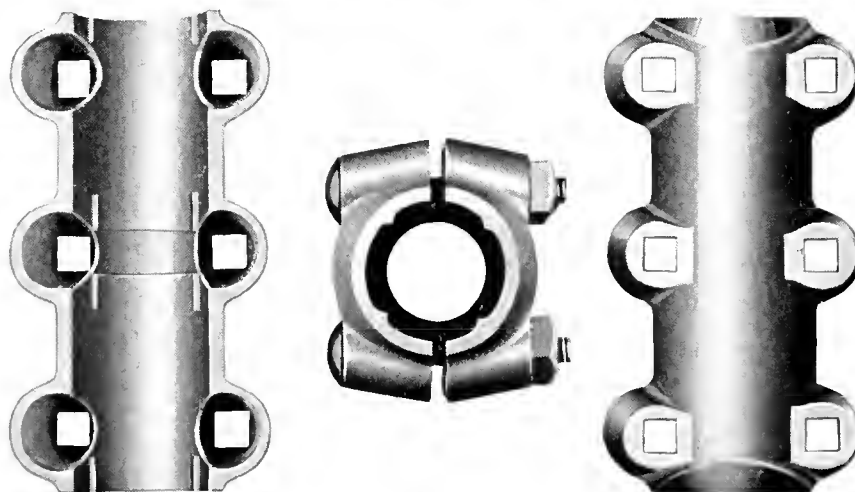

| | |
|-------------------------------|-------|
| 3/4" x 3/4" x 3/4"..... | \$.12 |
| 1" x 1" x 1"..... | .13 |
| 1 1/4" x 1 1/4" x 1 1/4"..... | .17 |
| 1 1/2" x 1 1/2" x 1 1/2"..... | .25 |
| 1" x 1" x 3/4"..... | .13 |
| 1 1/4" x 1 1/4" x 1"..... | .17 |
| 1 1/2" x 1 1/2" x 1 1/4"..... | .24 |
| 2" x 2" 1 1/2"..... | .28 |

TITE-GRIP COUPLINGS

On our Vent machine shafting pipe we find this coupling beats any of the old style where you drilled holes and used pins in the couplings. These just clamp on good and rigid, saving a lot of time, and they hold. Note the sixteen teeth.

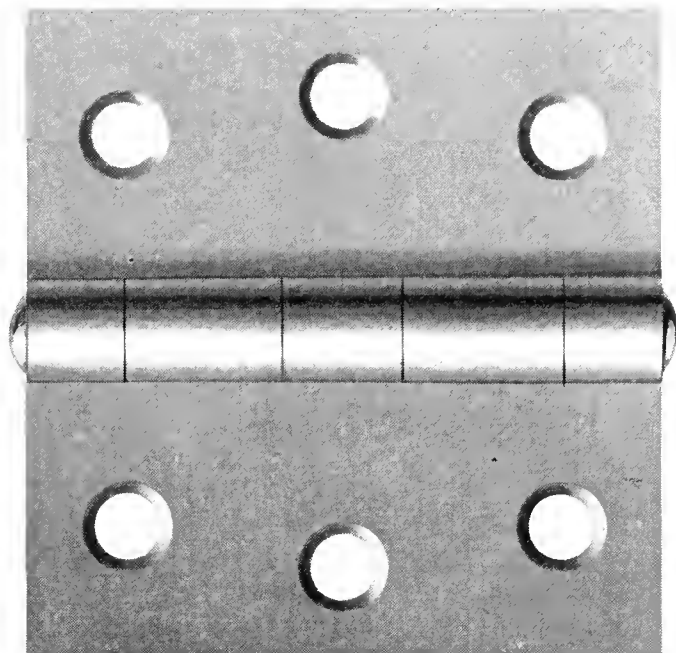

| | |
|---------------------------------|------------|
| 1" Tite-Grip couplings..... | \$.40 each |
| 1 1/4" Tite Grip couplings..... | .45 each |

CADMIUM PLATED DOOR HINGE

For inside and outside doors this 3½" x 3½" cadmium plated hinge is recommended. Three to each door prevents binding and sagging. Cadmium plated flat head wood screws are included. The tight brass pin is added assurance that a locked door will not be opened. Good hinges like these have five knuckles and large brass pins. Will not rust and corrode even though exposed and seldom used.

Price each, 30 cents

CADMIUM PLATED VENT SASH HINGE

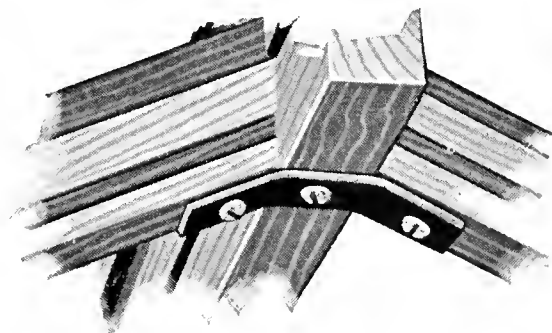

You will have less trouble if you plan your construction for this standard vent hinge. 2½" x 2½" in size with large tight brass pin and five knuckles. Rust, corrosion or other foreign matter cannot find a place to stick on this hinge. Rusted hinges finally freeze tight and off comes the hinge along with part of the vent or the header. This hinge is made for Greenhouse conditions and use. Cadmium plated screws included.

Price each, 12 cents

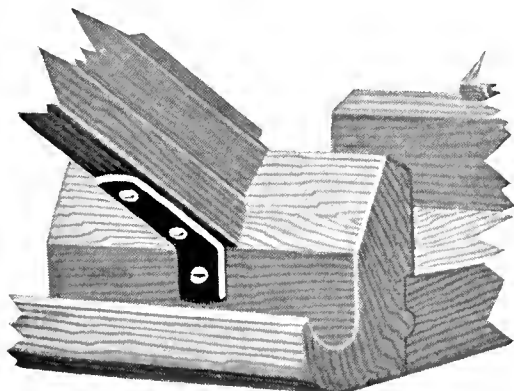

CADMIUM PLATED RIDGE BRACKET

Ridge brackets eliminate so many troubles at the bar to ridge connections that their use is now almost universal. You know the importance of keeping the bars in their original position and nails alone will not do it. Ridge brackets cannot be narrow, flimsy affairs and perform this important service, so we offer you uniform steel brackets 6" long and 1¼" wide, cadmium plated and well made. By all means use them on new work and get them on the old houses before they get too bad.

Price each, 6 cents

CADMIUM PLATED GUTTER BAR BRACKET

The time to put these gutter bar brackets on is when the house is going up. This bracket and fewer nails will prolong the life of the job. Neat, strong, and with a very definite purpose. On old houses where they were not used you can still get surprising results by putting them on now. 6" in length, 1¼" in width, and rust proof by the cadmium plating process. Screws included.

Price each, 6 cents

GARLAND SHADING COMPOUND

This Shading Compound can be used economically as it stays on well, one application usually lasts all season. Where abnormal amounts of rainfall occurs it is often necessary to apply second applications. This compound does not effect paint or putty. It is easily removed at the end of the season or will come off automatically with the first frost. It is unusually good for shading rose houses as it can be evenly sprayed on and does not make too heavy shading.

| | |
|---|----------------|
| Barrels — 500 lbs. to 600 lbs. | \$.11 per lb. |
| 1/2 Barrels — 200 lbs. to 300 lbs. | .12 per lb. |
| Kegs — 100 lbs. | .13 per lb. |
| Pails — 25 lbs. to 50 lbs. | .14 per lb. |
